What do you like most about the neighborhood?

I love the industrial & early-20th-century architecture, and the role it plays in continuing to support creative & crafted practices. I appreciate the unique people that live in and care for the neighborhood, and the commitment I've seen towards a productive and supportive community.

What do you think needs improvement in the neighborhood?

The neighborhood would benefit from more green space and a sense of habitable outdoors. Additionally, local business should be supported to grow existing creativity and promote pedestrian travel.

Tell us a little about yourself—how long have you lived in the neighborhood and what would make you a good board member:

I'm a sculptor who has been renovating a carriage house in the neighborhood as my studio and soon-to-be home. During the past year of bringing the building back to life from an uninhabitable state, I've connected with neighbors and been active in CNA meetings & local clean-up. I work at a large architecture firm, so additionally have experience with many relevant topics to RCO's. Moreover, I want to see this neighborhood thrive and hope to play a role in its success.
